

Pramuditha: Good evening, everyone! Welcome to "Sri Lanka: Charting Our Future." I'm Pramuditha and she's Pramodi your hosts. Today, we have a panel of political members who will share their plans for our country's development. Let's introduce them.

[Panelists stand up and wave as their names and party affiliations are shown.]

Pramodi: Tonight, we'll discuss the pressing issues in Sri Lanka and how our panelists plan to address them. We want to hear their visions and strategies for the future.

[Presenter points to the first panelist.]

Pramuditha: Mr. Ashan, from the Democratic Party, what do you think are the key issues in Sri Lanka, and how do you plan to solve them?

Ashan: Thank you, Pramuditha. One important issue is inclusive economic growth. We aim to support entrepreneurs, invest in sectors like technology and tourism, and create jobs for young people. We also prioritize building better infrastructure and connecting regions for development.

Pramodi: Thank you, Mr. Ashan. Now, Ms. Malshika, representing the United Front, what are your thoughts on the current situation, and what strategies do you propose?

Malshika: Good evening, Pramodi. We need to focus on social welfare and reducing poverty. Our party wants to strengthen safety nets, improve healthcare, and provide quality education. We also emphasize sustainable agriculture and protecting the environment for a better future.

Pramuditha: Thank you, Ms. Malshika. Now, Ms. Wathsala, from the People's Alliance, what do you think and how do you plan to move forward?

Wathsala: Good evening, Pramuditha. Sri Lanka needs strong governance and national security. We will work on law and order, unity, and the safety of our citizens. We also aim to attract foreign investments, boost manufacturing, and stabilize the economy for long-term growth.

Pramodi: Thank you, Mr. Wathsala. These are important areas to address. Now, let's talk with Mr. Akshayan. Share your future plans with us.

Akshayan: It's interesting to hear the perspectives shared so far, but let's not overlook the need for sustainable development and environmental conservation. Sri Lanka is blessed with natural beauty, and we must protect our ecosystems and combat climate change. The Green Sri Lanka Party's vision includes investing in renewable energy sources, reducing pollution, and promoting sustainable tourism. By doing so, we can create a greener and more prosperous future for all Sri Lankans.

Pramuditha: Thank you Mr. Akshayan. Finally we move to Mr. Dilukshan.

Dilukshan: Today, I stand before you with a steadfast commitment to international relations and diplomacy. My vision is clear—to promote peace, advocate for fair trade agreements, and address global challenges head-on. By fostering dialogue, cooperation, and empathy, we can build a better world for all. Together, let us embark on this transformative journey towards a future where harmony and prosperity reign supreme.

Pramodi: Thank you for your insightful contributions. The future of Sri Lanka depends on us, and the choices we make in the upcoming election will shape our country. Let's educate ourselves and participate actively as responsible citizens. That's all for today. Join us next week for another episode of "Sri Lanka: Charting Our Future." Good night, and May Sri Lanka prosper.
